Independent Auditor's Report

To the Board of Directors
Hawk Ridge Transportation Development District
Lake St. Louis, Missouri

We have audited the accompanying cash basis financial statements of the governmental activities and each major fund of Hawk Ridge Transportation Development District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities and each major fund of Hawk Ridge Transportation Development District as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with the cash basis of accounting as described in Note 1.

Independent Auditor's Report (Concluded)

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole that collectively comprise Hawk Ridge Transportation Development District's basic financial statements. The management's discussion and analysis and budgetary comparison information on pages 3-6 and 20-26, which are the responsibility of management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2020, on our consideration of the Hawk Ridge Transportation Development District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Hawk Ridge Transportation Development District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hawk Ridge Transportation Development District's internal control over financial reporting and compliance.

These statements include all assets and liabilities arising from cash transactions; a basis of accounting takes into consideration all of the current year's revenues collected and expenditures paid, but does not include capital assets, amounts due in the future from others, or liabilities payable from future revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis serves as an introduction to Hawk Ridge Transportation Development District's basic financial statements. The District's financial statements are comprised of two components, combined government-wide and fund financial statements and notes to financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Combined Government-wide and Fund Financial Statements

Government-wide and Fund financial statements are combined as allowed by the Governmental Accounting Standards Board for special purpose governments. As such, these combined statements show each major fund as well as the primary government as a whole.

Governmental fund - All of the District's basic services are reported in governmental funds, which focus on how money flows into and out of the funds and the balance left at year-end that is available for spending. The funds are reported using the cash basis of accounting. This measurement focus reports on revenues received and expenditures paid during the period. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The Hawk Ridge Transportation Development District internally maintains seven individual governmental funds. Information is presented in the Statement of Net Position - Cash Basis, for the General Fund, the Debt Service Fund, and the Project Fund, which are considered major funds. The General Fund consists of: the Special Trust Fund, the Revenue Fund, the County Roads Fund, and the Operating Fund. 1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A) BASIS OF PRESENTATION

Special-purpose governments engaged in a single governmental program and having no component units may present financial statements as combining fund financial statements with government-wide statements. This is illustrated on the Statement of Net Position and Governmental Funds Balance Sheet - Cash Basis and Statement of Activities and Governmental Fund Revenues, Expenditures and Changes in Fund Balances - Cash Basis.

In the fund financial statements, financial transactions and accounts of the District are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. The fund statements are also presented on a cash basis of accounting.

The following is a brief description of the specific funds used by the District.

Governmental Funds

General Fund – The District internally maintains three separate funds that make up the General Fund, as follows:

TDD Trust Fund - The TDD Trust Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Revenues are derived primarily from sales taxes.

Revenue Fund – Moneys deposited in the Revenue Fund shall be allocated in the following order:

- a) Pursuant to the District's grant of authority to the Administrator under the Administrative Services Agreement, the Administrator has agreed to pay, on the fifteenth (15th) calendar day of each month (or next Business Day), to the Trustee for deposit in the Revenue Fund, the TDD Revenues to the extent appropriated by the District for such purpose.

The foregoing provisions shall not be construed to impose any legal obligation on the District or the City to appropriate moneys for the payment of the Bonds. The Trustee shall notify the District and the Original Purchaser if the Trustee has not received funds into the Revenue Fund on or before the seventeenth (17th) calendar day of each month (or the next Business Day thereafter if the seventeenth (17th) day is not a Business Day).

- b) On the 40th day (or if such day is not a Business Day, the immediately preceding Business Day), except as otherwise provided, prior to each Interest payment Date, the Trustee shall apply moneys in the Revenue Fund to the extent necessary for the purposes and in the amounts as follows:

First, to the Operating Fund, fifty percent (50%) of the Annual Operating Fund Deposit;

Second, to the Rebate Fund, an amount sufficient to pay rebate, if any, to the United States of America, owed under Section 148 of the Code, as directed in writing by the District in accordance with the Tax Compliance Agreement or to pay any rebate analyst to perform rebate services as required by the Tax Compliance Agreement including, but limited to, the arbitrage rebate analysis and calculation of the arbitrage rebate;

Third, pay to the Trustee or any Paying Agent, an amount sufficient for payment of any fees and expenses which are due and owing to the Trustee or any Paying Agent, upon delivery to the District (with

A) BASIS OF PRESENTATION (CONCLUDED)

- d) Section, the preceding Section and the Tax Compliance Agreement shall survive the defeasance or payment in full of the Bonds.

Project Fund – The District internally maintains two separate fund that make up the Project Fund, as follows:

Project Fund –

- a) Moneys in the Cost of Issuance Account of the Project Fund shall be disbursed, from time to time by the Trustee as set forth on Schedule 1 of the Trust Indenture, to be paid upon receipt by the Trustee of invoices therefor, but without the necessity of receipt by the Trustee of a requisition therefor. - b) In making payments and disbursements pursuant to this Section, the Trustee may conclusively rely upon the written requests and accompanying certificates and statements. The Trustee is not required to make any independent investigation in connection with the matters set forth in the written requests. The approval of each disbursement request by an Authorized District Representative shall constitute unto the Trustee an irrevocable determination that all conditions precedent to the payment of the specified amounts from the Cost of Issuance Account have been completed.

Escrow Fund – The Escrow Agent shall establish a special and irrevocable separate trust fund to be held in the custody of the Escrow Agent and designated as the "Escrow Fund for Defeased Bonds – Hawk Ridge Transportation Development District" (the "Escrow Fund"). Except as otherwise provided in the Escrow Deposit Agreement, moneys in the Escrow Fund shall be held in trust by the Escrow Agent and shall be applied solely for the purpose of purchasing Escrowed Securities and to provide funds to the Trustee in accordance with the Escrow Deposit Agreement at the times and in the amounts required to pay debt service on the Defeased Bonds.

B) BASIS OF ACCOUNTING

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied. Government-wide financial statements and Fund Financial Statements are prepared using the cash basis of accounting, a special purpose framework. Under the cash basis, revenues are recognized when received rather than when earned and expenditures are recognized when cash is disbursed rather than when the obligation is incurred.

C) BUDGETS AND BUDGETARY ACCOUNTING

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) In accordance with Section 67 of the Missouri Revised Statutes, the budget officer, as designated by the District, prepares and adopts an annual budget which represents the complete financial plan for the ensuing budget year. The budget includes at least the following information:
 - a) A budget message describing the important features of the budget and major changes from the preceding year;
 - b) Estimated revenues to be collected from all sources for the budget year, with a comparative statement of actual or estimated revenues for the two years next preceding, itemized by year, fund, activity and object;

C) BUDGETS AND BUDGETARY ACCOUNTING (CONCLUDED)

- c) The amount required for the payment of interest, amortization, and redemption charges on the debt of the District;
- d) A general budget summary.
 - i. In no event shall the total proposed expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year.
 - ii. The District may revise, alter, increase or decrease the items in the proposed budget, subject to such limitations as may be provided by law provided, that in no event, shall the total authorized expenditures from any fund exceed the estimated revenues to be received plus any unencumbered balance or less any deficit estimated for the beginning of the budget year.
- 2) The District shall, before the beginning of the fiscal year, approve the budget and approve or adopt such orders, motions, resolutions or ordinances as may be required to authorize the budgeted expenditures and produce the revenues in the budget.
- 3) After the District has approved the budget and approved or adopted the orders, motions, resolutions or ordinances required to authorize the expenditures proposed in the budget, the District shall not increase the total amount authorized for expenditure from any fund, unless the District Council adopts a resolution setting forth the facts and reasons making the increase necessary and approves or adopts an order, motion resolution or ordinance to authorize the expenditures.

The fiscal year ending June 30, 2020 budget was approved by the Board of Directors.

D) CAPITAL ASSETS AND LONG-TERM LIABILITIES

In accordance with the cash basis of accounting, the government-wide and fund financial statements report capital asset additions as expenditures when cash is expended and debt proceeds are shown as other financing sources when cash is received. Debt principal payments are shown as expenditures when payments are made. Capital assets and long term liabilities are not maintained on these financial statements but long term debt is disclosed later in these notes to the financial statements.

E) FUND BALANCE AND NET POSITION

Net Position represents the difference between assets and liabilities. Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by laws or regulations of the government. All other net position that does not meet the definition of "restricted" are reported as unrestricted net position. It is the District's policy to expend restricted resources first if the restrictions are met.

Fund balances are classified as follows:

Nonspendable- This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District did not have any nonspendable fund balance as of June 30, 2020.

Restricted- This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors,

or law or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The District had an ending balance of \$667,763 for restricted fund balance that consisted of the Debt Service Fund.

Committed- This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The District had no committed resources as of June 30, 2020.

Assigned- This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the District Board through budgetary process. The District had no assigned resources as of June 30, 2020.

Unassigned- All amounts not included in other spendable classifications.

The District would typically use Restricted fund balances first, followed by Committed resources, and then Assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend Unassigned resources first to defer the use of these other classified funds.

2) CASH AND CASH EQUIVALENTS

The District complies with various restrictions on deposits and investments, which are imposed by the state statutes as follows:

Deposits - All deposits with financial institutions must be collateralized in an amount at least equal to uninsured deposits.

Investments - The District may invest in the following:

- (a) Government Securities;
- (b) bonds, notes or other obligations of the State, or any political subdivision of the State, that at the time of their purchase are rated in either of the two highest rating categories by a nationally recognized rating service;
- (c) repurchase agreements with any bank, bank holding company, savings and loan association, trust company, or other financial institution organized under the laws of the United States or any state, including, without limitation, the Trustee or any of its affiliates, that are continuously and fully secured by any one or more of the securities described in clause (a) or (b) above and have a market value, exclusive of accrued interest, at all times at least equal to the principal amount of such repurchase agreement and are held in a custodial or trust account for the benefit of the District;
- (d) obligations of Fannie Mae, the Government National Mortgage Association, the Federal Financing Bank, the Federal Intermediate Credit Corporation, Federal Banks for Cooperatives, Federal Land Banks, Federal Home Loan Banks, Farmers Home Administration and Federal Home Loan Mortgage Corporation;
- (e) certificates of deposit or time deposits, whether negotiable or nonnegotiable, issued by any bank or trust company organized under the laws of the United States or any state, including, without limitation, the Trustee or any of its affiliates, provided that such certificates of deposit or demand deposits shall be either (1) continuously and fully insured by the Federal Deposit Insurance Corporation, or (2) continuously and fully secured by such securities as are described above in clause (a) or (b), which shall have a market value, exclusive of accrued interest, at all times at least equal to the principal amount of such certificates of deposit or time deposits;

2) CASH AND CASH EQUIVALENTS (CONCLUDED)

- (f) money market mutual funds that are invested in Government Securities or agreement to repurchase Government Securities; and
- (g) any other securities that are lawful for the investment of moneys held in such funds or accounts under the laws of the State.

Cash of the District at June 30, 2020 is as follows:

Deposits

At year ending June 30, 2020 the carrying amount of the District's deposits in the TDD Trust Fund was \$35,101 and the bank balance was \$35,101. Any balance maintained in this account would be covered by federal depository insurance up to \$250,000. The cash balances with the Trustee, \$693,777, were invested in Goldman Sachs Financial Square Government Fund money market accounts. Due to the short-term nature of the investments, cash balances are classified as cash equivalents in the District's basic financial statements. The Goldman Sachs Financial Square Government Fund money market account is not insured by federal depository insurance coverage. The Fund, however, only invests in U.S. government securities and repurchase agreements.

Investments

The District held no investments at June 30, 2020.

3) COMMITMENTS

On September 15, 2004, the District entered into a Missouri Highways and Transportation Commission Development District Cooperative Agreement because a portion of the Transportation Project was intended to be merged into the state highways and transportation system (the "State Transportation Project") under the jurisdiction of the Missouri Highways and Transportation Commission. Under the Agreement, the State Transportation Project is described as follows:

- (a) modification of some bridges and widening of the temporary bypass as part of the construction project to rebuild Highway 40 interchange with relocated Highway N;
- (b) construct the Fox Hound Drive overpass over Highway 40 with a minimum of a 48-foot cross section;
- (c) Highway N and westbound 40 ramps: (1) construct a right-turn bypass from the westbound off-ramp to accommodate the heavy westbound-to-southbound traffic movement and provide a third (auxiliary) lane between the westbound ramps and the south-to-eastbound loop ramp (approximately 900 feet), (2) provide dual southbound left turn lanes from the off ramp onto eastbound Highway N, and (3) provide a westbound right turn lane onto the Highway 40 on ramp;
- (d) install a traffic signal at the Highway N and eastbound Highway 40 off ramp;
- (e) any similar or related improvement or infrastructure provided for by Section 238.202(5) of the TDD Act, contemplated by the Construction Plans and approved by the Commission; and
- (f) accompanying grading, drainage, pavement, curb, gutter, sidewalk, stormwater facilities, structures (including any architectural treatments related thereto), signing, striping, lighting, traffic signals, landscaping or similar or related infrastructure or improvement in connection therewith.

The District shall provide or cause to be provided all funding, complete and accurate plans and specifications, surveying, and all necessary construction work, equipment and materials to complete the State Transportation Project.

3) COMMITMENTS (CONCLUDED)

It is understood by the District and the Commission that any of the State Transportation Project improvements placed on the Commission's right of way becomes the property of the Commission. Effective upon the final acceptance of the construction of the State Transportation Project, the Commission shall keep control and maintain as part of the state highway system that portion of the State Transportation Project lying within state-owned limited access right of way limit (including structural maintenance of any overpass therein), and the District shall have no further rights, obligations or responsibility with respect to said State Transportation Project improvements other than the following:

(1) Provide maintenance responsibility for that portion of the State Transportation Project, if any, that is not within Commission right of way.

(2) Provide maintenance responsibility for any and all aesthetic interchange treatments or improvements, if any, approved by the City and the Commission, including decorative or ornamental lighting. Costs for electric power for any extraordinary decorative or ornamental lighting shall be the responsibility of the District.

(3) Provide maintenance responsibility for all landscape treatments, if any, within the Commission right of way, including irrigation systems. Any landscape treatments and irrigation systems shall be approved by the Commission and the City. Costs for water to supply irrigation systems shall be the responsibility of the District.

(4) Provide routine and regular maintenance, including, but not limited to the sweeping, striping, and snow removal, on any portion of roadway that goes over or above the state highway system, but is not an extension of a state-owned and maintained roadway constructed pursuant to the Agreement.

On September 3, 2015, the District approved a certificate of substantial completion submitted by Lila, Inc. for the completion of the District's Transportation Project.

The District issued \$12,115,000 in Series 2016 Sales Tax Refunding Bonds during the year ending June 30, 2016. The proceeds will be used to pay off the Series 2006A Sales Tax Revenue Bonds on August 1, 2017.

4) LITIGATION

At June 30, 2020, there were no claims or lawsuits pending against the District.

5) TAXES

The District imposed a transportation development district sales tax (the "TDD Sales Tax") at a rate of three-fourths of one percent (3/4%), which became effective on the first day of the month following adoption of the TDD Sales Tax by the qualified voters of the District at an election held in accordance with Section 238.216 of the TDD Act. The qualified voters of the TDD approved the TDD Sales Tax by election, which became effective on May 1, 2005, pursuant to Section 238.216.1(3) of the TDD Act.

6) LONG-TERM DEBT

Pursuant to Resolution No. 16-001, the District's Board of Directors approved the issuance of the Transportation Sales Tax Revenue Refunding Bonds, Series 2016 (the "Bonds"), in the aggregate principal amount not to exceed \$12,250,000, for the purpose of refunding the Prior Bonds and paying the costs of issuance of the Bonds. The Bonds shall be payable out of payments, revenues and receipts derived by the District from certain TDD Sales Tax Revenues. On June 21, 2016, the Transportation Sales Tax Revenue Refunding Bonds, Series 2016 were issued for \$12,115,000. The maturity date of the Bonds is February 1, 2030 with an interest rate of 3.65%. Since the District only pays on principal if there are funds available, no debt service requirements are presented in this report.

Hawk Ridge Transportation Development District

Notes to Financial Statements For the Year Ended June 30, 2020

6) LONG-TERM DEBT (CONCLUDED)

As of June 30, 2020, the District had Bonds payable in the amount of \$9,155,000. The District made debt principal payments of \$945,000 and interest payments of \$360,438 during the fiscal year. As of June 30, 2020, the District had accrued interest of \$139,262.

Following is a summary of the Bonds payable as of June 30, 2020:

	Balance @ 6/30/2019	Issued in FY 2020	Repaid in FY 2020	Balance @ 6/30/2020	Interest Paid in FY 2020
Sales Tax Revenue Refunding Bonds - Series 2016	\$ 10,100,000	\$ -	\$ (945,000)	\$ 9,155,000	\$ 360,438
	\$ 10,100,000	\$ -	\$ (945,000)	\$ 9,155,000	\$ 360,438

7) SUBSEQUENT EVENTS

These financial statements considered subsequent events through November 17, 2020, the date the financial statements were available to be issued.

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The District's operations are heavily dependent on the ability to raise taxes, assess fees, and access the capital markets. Additionally, access to grants and contracts from federal, state and local governments may decrease or may not be available depending on appropriations. The outbreak may have a continued material adverse impact on economic and market conditions, triggering a period of global economic slowdown. This situation is expected to depress the tax bases and other areas in which the District received revenue during fiscal year 2020. As such, this may hinder our ability for the District to meet the needs of its constituents. It may also lead to the District to seek debt forbearance and additional sources of debt. As such, our financial condition and liquidity may be negatively impacted for the fiscal year 2020.

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards**

To the Board of Directors
Hawk Ridge Transportation Development District
Lake St. Louis, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Hawk Ridge Transportation Development District, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Hawk Ridge Transportation Development District's basic financial statements, and have issued our report thereon dated November 17, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hawk Ridge Transportation Development District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hawk Ridge Transportation Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Hawk Ridge Transportation Development District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hawk Ridge Transportation Development District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our

tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
